STYLAM

STELLA

multipanels

30 years

spent pursuing the ethos,

'what the spirit commits, perseverance completes' is what has shaped Stylam Industries Limited. We are reputed to be a global entity with a Pan India presence and a thriving export market in more than 80+ countries, having our major customers in Europe, Far East, Middle East, Russia, and North America.

We have our state-of-the-art infrastructural plant at Panchkula in North India. Sophisticated moulds of various finishes imported from Europe are used in the production of our high-quality laminates following the universally acceptable European standards EN 438 series. Crossing our silver jubilee celebrations was the inauguration of our ultra-modern manufacturing plant, designed by renowned Singapore-based architects. The facility has a hydraulic press system capable of producing the biggest size of laminate panels in India.

We are an ISO 9001: 2015 certified company, that itself shows our integrity, quality and reliability. Another feather in our cap is, we are recognized as an 'Export House' by the

Government of India. Our unique design range and advanced quality efficiency of laminates have assisted the company in being awarded the prestigious CE certification for its compact laminates.

STELLA TILES

Go Instant.
Smart.
low profile

Beauty, innovation, sustainability. Stylam introducing a new innovative product in the world of architecture and living. STELLA TILES a lightweight, versatile and resistant material that goes beyond the look of natural materials: decorative elements and sophisticated designs lend a distinctive quality personality to any project.

Create a beautiful array with our waterproof and antimicrobial wall panels, the modern and luxurious way to decorate your spaces. Transposing the most precious essences offers an original and flawless interpretation of the trendiest surfaces – solid, stone and wood – without betraying its vocation for experimenting with forms, colors and surfaces. Style to those who love the worn effect. Also, stellar tiles are perfect for renovating without demolishing. They can be easy installed on the top of existing walls, providing the benefit of speed, convenience, cost saving and absence of debris.
1

HEALTHIER   Integrated Protect
antimicrobial technology

2

EASIER TO CLEAN   Exclusive **surface processing** techniques.

3

MORE VERSATILE & SUITABLE FOR EVERY USE   wide availability of high-performance technologies and components that allow you to obtain products suitable for different uses

4

MORE SUSTAINABLE   production process that is extremely efficient in terms of compliance with environmental standards and consumption of water, energy and raw material.

STELLAR AT THEIR BEST.

Stellar offer unique and outstanding performance.

STYLAM stands out for its superior quality products
