Our journey is a vibrant blend of resilience, innovation and a relentless quest for excellence. For over three decades, we have been the trailblazers in decorative laminates and allied products, constantly pushing the envelope and redefining the standards. Our cutting-edge manufacturing processes and the groundbreaking introduction of the PU+ Lacquer Coating process in India reflect our passion for delivering high-quality, stunning and functional products that breathe life into spaces. As we continue to grow, our vision remains clear: to lead globally while staying true to our proud Indian heritage.

This year has truly highlighted the power of unity and strength. Despite the bumps along the road, we have come together, harnessing our collective experiences to emerge even stronger. Our journey is a celebration of our collaborative spirit, the unwavering trust of our stakeholders and the boundless energy of our team. Together, we have achieved significant milestones, such as reducing our net debt and proudly becoming a debt-free company. Our expanding global footprint and the continued trust of our customers are testaments to our strategic vision and operational excellence. We are not just weathering the storm. We are thriving in it, stronger and more united than ever.

At Stylam, sustainability is at the heart of everything we do. By embracing Environmental, Social and Governance (ESG) principles, we ensure our growth is not just about profits—it is about making a meaningful impact. From innovative energy efficiency projects and renewable energy adoption to comprehensive waste management and water conservation initiatives, we are committed to minimising our environmental footprint. Our CSR initiatives further demonstrate our dedication to the well-being of the communities we serve. True progress for us is about the positive impact we create together. As we move forward, we are excited to continue this journey of sustainable growth, innovation and collective success, emerging stronger with each passing year.

Why choose Stylam

At Stylam, we are a beacon of innovation and quality in the decorative laminates and allied products industry. With a legacy spanning over three decades, we have consistently pushed the boundaries of design and manufacturing, establishing ourselves as a market leader. Our dedication to quality and innovation allows us to cater to a diverse range of customer preferences, both domestically and internationally.

We excel at blending tradition with modernity to create products that are not only aesthetically pleasing but also highly functional. Our extensive product portfolio includes high-pressure laminates, solid acrylic surfaces, and exterior cladding solutions, all crafted with the utmost precision and care. Our pioneering efforts in introducing the PU+ Lacquer Coating process in India have set new standards in the industry, ensuring that our products are of the highest quality and value.

Choosing Stylam means opting for a commitment to excellence, innovation and superior customer satisfaction. It means experiencing the Stylam difference in creating beautiful, functional spaces.

Managing Director's Message

Our purpose has always been to provide innovative building material solutions in India and multiple other geographies; and we remain steadfast in our pursuit of value creation for our customers and stakeholders in line with our Vision 2025-27.

Dear Shareholders,

Stylam Industries continues to be one of the fastest growing companies in the high-quality decorative laminates and allied products industry — emerging stronger every day.

Our purpose has always been to provide innovative building material solutions in India and multiple other geographies; and we remain steadfast in our pursuit of value creation for our customers and stakeholders in line with our Vision 2025-27.

Operating in over 80 countries across continents, we are well-penetrated globally, as well as enjoy a wide domestic presence. Transcending cultures and geographic borders, we have built a diversified product portfolio and a resilient business model.

Navigating uncertainties resiliently

Looking at the macro-economic landscape, the global economy continued to face significant uncertainties during the financial year 2023-24 (FY24), with high inflationary pressure and supply chain disruptions caused by geopolitical conflicts in several parts of the world.

Despite adversity, we have maintained a resilient performance during the year. Our diversified presence across domestic and international markets has enabled us to mitigate risks, while leveraging growth opportunities. By focusing on value-added products, optimising costs prudently and investing

Mr. Jagdish Rai Gupta
Managing Director

strategically in technology improvements, we have strengthened our ability to adapt and thrive in an ever-evolving market scenario.

Business overview

We are India's largest laminate-producing group in India, operating one of the largest single-location laminate manufacturing plants in Asia, spanning 58 acres with an annual capacity of 16 million sheets. We continue to be the global leader in the 'Hot Coating Process' for PU+ Lacquer coating on thin laminates, a unique process developed with patented technology by KLEIBERIT and BARBERAN. Additionally, we have pioneered the production of solid acrylic surfaces in India, with our first-of-its-kind production line earning certification from NSF International, USA.

Financial performance

Operating in a volatile global economic backdrop, our net revenue stood at ₹914 crores in FY24, a marginal decline from ₹952 crores registered in FY23.

Our EBITDA increased from ₹154 crores in FY23 to ₹183 crores in FY24, and our PAT rose from ₹96 crores to ₹128 crores over the same period. Exports contributed significantly to our performance, accounting for ₹611 crores, while the domestic market generated ₹303 crores. Our margin profile is also improving steadily, which demonstrates our focus on better product mix and strong footprint in global markets.

Expansion and diversification

To enhance our product offerings and meet evolving market demands, we diversified into a new segment by adding a short cycle press capacity for

the lamination of impregnated paper on Medium Density Fiber (MDF) panels. Approximately two-thirds of our revenue comes from exports to over 80 countries, while the remaining revenue is derived from our strong presence across the Indian subcontinent.

Our recent modular expansion at existing facilities, with an investment of INR 30 crores, has increased our capacity. With about 74% capacity utilisation in our laminates division, we are well-positioned for future growth. Importantly, our debt-free position strengthens our balance sheet and allows us to reinvest the free cashflows for capacity expansion.

To further strengthen our market position, we are establishing a new laminate manufacturing plant adjacent to its existing facility in Manak Tabra, Panchkula, Haryana.

Emerging stronger responsibly

Our commitment to environmental stewardship is reflected in the products we manufacture. Our products are ecologically friendly, and we hold certifications from NSF (National Sanitation Foundation) and ISO 14001:2015, ensuring that we adhere to stringent environmental management practices. On the CSR front, we have contributed to local communities through initiatives like infrastructural development

in government schools, healthcare support through ambulance services, and setting up old age homes and day care centres for senior citizens.

Way forward

Our focus remains on enhancing the share of value-added products in our portfolio, while expanding our product range. We are also committed to strengthening our domestic presence through deeper market penetration and brand building. On the global front, we aim to expand our coverage in newer export regions while deepening relationships with existing partners.

Looking ahead, we are confident that our strategic initiatives, strong market position, and resolute focus on innovation and sustainability will continue to drive growth and create long-term value for all our stakeholders.

On behalf of the Board and the entire management team, I convey our gratitude for your continued encouragement and support in our journey.

Quality excellence

At Stylam, quality is at the heart of everything we do. We rigorously adhere to stringent quality control measures, ensuring that every product upholds the highest standards of excellence. Our unwavering commitment to quality is validated by our numerous certifications and awards, including ISO 9001:2015 Certification, NSF International Certification and recognition as a Three Star Export House by the Government of India.

Ensuring manufacturing efficiency

To maintain manufacturing efficiency, all our locations undergo third-party certification for conformance to Quality Management Systems (ISO 9001:2015). We conduct internal audits to meticulously control our processes. Our procurement process is governed by a comprehensive Standard Operating Procedure (SOP), guaranteeing that all our procurement is ethical and meet our exacting standards.

Elevating our presence

Our domestic marketing initiatives are meticulously crafted to strengthen our brand presence and forge deep connections deeply with our customers. We employ a multi-faceted approach to ensure that our products are visible, accessible and appealing to a diverse audience. Our strategies encompass a blend of traditional and modern marketing techniques aimed at boosting brand recognition and driving sales growth.

Creating a consistent and recognisable brand presence across retail locations

Our domestic marketing efforts include the installation of branded signboards and the development of shop-in-shop formats (Fascia+), ensuring a consistent and recognisable brand presence across retail locations. We also certify our dealers, ensuring they meet our high standards of service and product knowledge. This certification builds customer trust and confidence in our brand.

Engaging with potential customers through exhibitions and trade shows

We actively participate in domestic exhibitions such as 'Delhi Matecia' and 'Bangalore India Wood' to showcase our products and engage with potential customers.

We leverage social media platforms like Instagram, Facebook and LinkedIn, we keep our followers informed about the latest products, promotions and company news.

Global marketing initiatives

We actively participate in international exhibitions held in key global hubs such as Dubai, Germany, Atlanta and Bogota, USA. These exhibitions offer invaluable opportunities to showcase our extensive product lineup, engage with potential clients and explore untapped markets.

Building strategic partnerships with international distributors and retailers strengthens our market presence and ensures our products are readily accessible to customers worldwide. Additionally, collaborating with influential figures and industry experts to endorse our products further enhances our credibility and appeal in the global market.

Always prioritising our human capital

At Stylam Industries, we recognise the critical importance of employee development and strive to be an attractive employer. Attracting, developing and retaining top talent is integral to our operational excellence.

Talent management

In a rapidly changing world, we understand the necessity of preparing our employees for future challenges, including social, economic and technological advancements. To address this, we consistently invest in projects that enhance and diversify our employees' skills. We offer various training and educational

opportunities to ensure our staff are well-prepared for the future. We have also implemented a succession planning policy that helps us identify and fill key leadership roles. This policy aligns with our business objectives and mitigates risks related to vacancies, project readiness and transitions.

Diversity and inclusion

We are dedicated to being an equal-opportunity employer and fostering diversity in our workforce, including individuals of various genders, religions, races, ethnicities and educational backgrounds. This commitment is enshrined in our code of conduct, as we understand the value of diversity in enhancing performance, fostering creativity, encouraging innovation and improving decision-making.

We have made significant efforts to improve gender diversity in both office and management positions. Additionally, we strategically invest in the professional development of our employees. Our Remuneration Policy ensures fair compensation, aligning the aspirations of our human resources with the Company's objectives.

Learning and development

Employee training and development are crucial to our business success. They not only enhance productivity but also contribute to a positive Company culture.

We prioritise both individual and organisational learning, offering capacity-building initiatives to all employees, including the Board of Directors and Key Managerial Personnel. Our focus is on targeted development aligned with core competencies, covering technical skills, behavioural abilities and compliance culture. We provide a range of internal and external programmes, including training on SEBI regulations, core tools, safety and industry standards.

Skill upgradation is a top priority for us. During the current fiscal year, we conducted various skill training sessions, empowering 90% of our employees across technical, compliance and behavioural skill sets. In addition, we ensure that workers receive comprehensive training, including modules on safety, 5S, process operations and maintenance.

90%

Performance review

We conduct regular performance and career development reviews for all employees. Based on these reviews, we recommend annual increments and incentives to the Nomination and Remuneration Committee. Permanent employees receive promotions and increments based on both business and individual performance, including variable pay.

appreciation. Regular events, meetings with leaders and employee engagement activities help us maintain a stimulating work environment.

Initiatives such as the Kaizan award for Star of the Month and the Suggestion Scheme encourage ownership and continuous improvement. Furthermore, we have introduced various programmes to reward and support exceptional teamwork within our organisation.

Employee well-being

We place a strong emphasis on the physical and mental wellness of our employees, as it is vital for fostering workplace resilience. By promoting well-being, we contribute to better work and working lives, benefiting individuals, organisations, economies, and communities.

A healthy workplace environment enables employees to thrive, resulting in increased resilience, higher engagement, reduced sick leave and improved performance and productivity. We believe that investing in employee health and well-being yields significant positive outcomes for both our employees and the Company.

Health and safety

Ensuring a safe working environment is of paramount importance to us. We are committed to the health and safety of our employees, contractors, partners, visitors and communities.

Our comprehensive security system relies on real-time data and shared responsibility, with senior management and facility workers implementing robust safety policies and measures. We maintain high occupational safety standards, comply with regulations and conduct regular assessments. Training programmes on health and safety are provided to all employees and workers.

Employee engagement

Effective communication and engagement with our employees are essential to us. We have implemented various initiatives to foster better cohesion at both departmental and organisational levels. We also recognise the contributions of long-tenured employees and involve their families in

A commitment to sustainable growth

At the heart of our corporate philosophy lies a steadfast commitment to Environmental, Social and Governance (ESG) principles. Recognising the critical importance of sustainable development, we aim to create a positive impact on both the environment and society. Our ESG initiatives are designed to foster inclusive growth, minimise our ecological footprint and contribute to the well-being of the communities we serve.

Environmental stewardship

Energy efficiency and renewable energy

We have made significant strides in enhancing energy efficiency and adopting renewable energy sources. By transitioning to high GCV fuel for our boilers and cleaner fuels like gas for our impregnators, we have successfully reduced greenhouse gas emissions. Our energy conservation projects, such as optimising compressed air usage and installing energy-efficient equipment, have resulted in significant energy savings.

Waste management

Our dedication to responsible waste management is evident in our comprehensive recycling initiatives. All waste generated from our manufacturing process is sold for recycling and e-waste is treated as per our buy-back policy, ensuring responsible disposal. We uphold a comprehensive waste policy to effectively manage and minimise waste.

Green initiatives

Our implementation of rainwater harvesting systems and water recycling processes further demonstrates our commitment to environmental sustainability.

Corporate Social Responsibility (CSR)

Our commitment to Corporate Social Responsibility (CSR) goes beyond mere compliance; it is a fundamental aspect of our corporate philosophy. We believe in fostering inclusive growth and contributing to the holistic development of the communities around us. Our CSR initiatives are designed to create a positive impact on society and the environment, reflecting our dedication to sustainable development

Management Discussion and Analysis

Economic Overview

Global economy¹

The reported year witnessed the global economy grappling with various macroeconomic challenges such as persistent geopolitical turmoil, supply chain disruptions and rising inflation. While the central banks of major economies resorted to calibrated interest rate hikes, the impact of these hikes weighed upon the economic growth. However, despite such headwinds, the global economy demonstrated remarkable resilience and achieved a growth rate of 3.3% in CY2023. Effective monetary policies also resulted in inflation levels declining faster than anticipated in most regions.

While advanced economies such as the US surpassed its pre-pandemic growth, the Eurozone avoided the predicament of an economic downturn. Several emerging markets and developing economies (EMDEs), except for China, recorded positive growth momentum, witnessing surging equity values, and increased capital flows. With the inflation rate gradually declining, economic conditions are gradually improving. Certain low-income nations and frontier economies have also regained their position in the market.

Outlook

According to the IMF World Economic Outlook for July 2024, the global economy is projected to grow by 3.3% in 2025, with advanced economies expected to see a rise of 1.8% in the same year. The revised forecast for advanced economies indicates that the pace of disinflation will slow down in 2024 and 2025, driven by persistent inflation in service prices and higher commodity prices. However, the gradual cooling of labour markets and an anticipated decline in energy prices should help reduce headline inflation to target levels by the end of 2025. In emerging markets and developing economies, inflation is expected to remain higher and decrease more slowly compared to advanced economies. Despite this, falling energy prices are bringing inflation closer to pre-pandemic levels for the median emerging market and developing economy.

Indian economy²

In FY 2023-24, the Indian economy achieved a remarkable growth rate of 8.2%, the highest among major global economies. Despite the global economy recording a sluggish growth, key indicators such as e-way bills, GST collections and toll collections surged by double digits, reflecting sustained expansion in domestic economic activity. This robust growth can be primarily attributed to strong fiscal management, significantly increasing in capital expenditure from INR 10.5 lakh crore in FY23 to INR 12.7 lakh crore in FY24.

As the current account deficit (CAD) moderated to 1.2% of GDP during FY 24 from 2.6% of the previous year, it indicated a significant improvement in the country's external balance. Additionally, Foreign Direct Investment (FDI) remained robust at USD 59.9 billion during the reported year, reflecting strong investor confidence. Furthermore, with net inflows recording USD 3.7 billion during FY24, it strengthened the country's external position.

Outlook

The Indian economy is expected to maintain its positive growth trajectory in FY 2024-25, with a projected GDP growth rate exceeding 7%. Substantial public and private investments in key infrastructure projects, stimulating economic activities in sectors such as transportation, housing and urban development is expected to drive the economic expansion in the forthcoming years. This positive outlook is a testament to India's economic resilience and its ability to navigate global challenges effectively. The country's commitment to infrastructure development and its focus on stimulating economic activity in key sectors will continue to foster growth and development.

Industry Overview

India's Real Estate Sector³

The housing sector in India witnessed a significant growth during FY 2024. The average housing prices across the top eight cities registered an impressive 10% year-on-year increase, reaching INR 10,485 each square foot. The growth in this sector was due to a number of factors, such as healthy demand for real estate, stable repo rates, controlled inflation levels and optimistic market sentiments. All eight cities which includes Kolkata, Chennai, Bengaluru, Ahmedabad, Delhi NCR, Pune, Hyderabad and MMR experienced an annual rise in housing prices, with Bengaluru leading the pack at a remarkable 19% year-on-year growth, closely followed by Delhi-NCR at 16%.

The demand for real estate experienced a slight quarterly decline while the demand for unsold houses expanded by 3% annually. Cities like Pune witnessed the highest annual drop of unsold inventory at 10% year-on-year, followed by Delhi-NCR and Ahmedabad, both reporting a year-on-year decrease of 8%. This trend signifies a healthy demand-supply equilibrium in the housing market across major metropolitan cities.

Outlook

The housing sector in India is promised to experience growth, fuelled by various infrastructure developments and favourable market conditions. Projects such as the Ahmedabad Metro Phase II, Mumbai Trans Harbour Link and Pune Metro Line III are expected to increase residential activity in their respective regions. The proposed Metro Phase II in Hyderabad is likely to stimulate residential real estate development in the long term, particularly in the South-west and South-east micro-markets. The housing sector of India appear promising, with growing demand and strategic infrastructure initiatives serving as catalysts for further expansion.

Growth Drivers⁴

Demographic Dividend:

India's increasing population will drive significant demand for housing. It is estimated that urban cities in India will require an additional 78 million housing units between 2024 and 2034 to accommodate the growing urban population. This surge in demand has the potential to generate an additional market value output of approximately USD 906 billion over the next 10 years.

Economic Growth and Rising Income Levels:

India's GDP is expected to reach USD 10.3 trillion by 2034, fuelled by factors such as a growing young population, improved domestic manufacturing, infrastructure development and urban expansion. As income levels rise, the demand for housing across segments including affordable, mid-segment and luxury, is expected to increase, creating opportunities for residential real estate developers.

⁴ <https://www.cii.in/PressreleasesDetail.aspx?enc=OfwnSJrDlLux9mCmlOeD2D09OzURPeEI7qsEBP07ILA=>

Expansion of Commercial Real Estate:

India’s progressing economy and the growth of the formal workforce will require an estimated office space of 2.7 billion square feet by 2034, an additional requirement of 1.7 billion square feet in the next decade. The potential revenue generation from India’s office real estate is estimated to be USD 125 billion in 2034. Moreover, it is expected that Global Capability Centres (GCCs) will potentially drive the office market, with an estimate of 2,880 GCCs across India by 2034.

Infrastructure Development and Manufacturing Growth:

The share of India’s manufacturing sector can potentially increase to 21.3% of the GDP by 2034. To accommodate this surge in manufacturing, an estimated 2 million hectares of land will be required for industrial use in India, generating revenue amounting to USD 28 billion by 2034. Additionally, the growth of the warehousing market, driven by economic growth and rising income levels, is expected to experience a demand of 111 million square feet by 2034, an increase of 42 million square feet over the next decade, with the potential to generate revenue of USD 8.9 billion.

India’s export market⁵

India’s exports have expanded to 115 countries out of 238 destinations in 2023-24, despite global economic uncertainties, as reported by the Ministry of Commerce. These 115 export destinations, which represent 46.5 % of India’s export basket, include the US, UAE, Netherlands, China, UK, Saudi Arabia, Singapore, Bangladesh, Germany, and Italy. The report highlights that overall exports (goods and services combined) reached an all-time high in 2022-23 despite ongoing global challenges.

Total exports rose to USD 778.2 billion in 2023-24, up from USD 776.4 billion in 2022-23, marking a slight increase of 0.23 %. Additionally, India’s share of global merchandise exports grew marginally from 1.70 % in 2014 to 1.82 % in 2023. Moreover, India’s exports to its top 10 destinations saw a 13 % year-on-year increase in 2023-24. This positive growth in exports can be attributed to India’s robust GDP growth fundamentals and outlook, continued momentum in the manufacturing and services sectors, anticipated global easing of monetary tightening which boosts global demand, and partly due to the base effect.

Global Furniture Market

(in USD Billion)

Market forecast to grow at a CAGR of 6.6%

Global Furniture Industry⁶

The global furniture industry has exhibited a significant growth in the recent years, expanding from USD 752.22 billion in 2023 to an estimated USD 805.54 billion in 2024, reflecting a Compound Annual Growth Rate (CAGR) of 7.1%. This growth can be attributed to several key factors, including the globalisation of the furniture manufacturing industry, economic growth and housing expansion, the adoption of sustainable and eco-friendly practices, demographic shifts and the rise of the Do-It-Yourself (DIY) culture.

The furniture market is set for expansion, expected to reach USD 1,040.36 billion in 2028 at a CAGR of 6.6%. This forecasted growth is fuelled by trends such as flexible and multifunctional designs, sustainable practices, wellness-focused furniture, rental markets and luxury furniture. Major trends shaping the industry include smart furniture, customisable designs, retro styles, biophilic designs and space-saving solutions.

India’s Furniture Industry⁷

The furniture industry in India has emerged as a significant player in the global stage. In 2022, India was ranked as the 5th largest producer and 4th largest consumer of furniture across the world, with the market valued at USD 23.12 billion. The furniture industry in India is experiencing growth, with projections indicating a CAGR of 10.9% during the years 2023-28, potentially reaching USD 32.7 billion by 2026. This growth is supported by several factors, including the development of multimodal logistics parks across 35 nodes, which will account for 60% of freight movement and reduce freight costs each tonne. The increasing urbanisation, with 51% of India's population expected to reside in urban areas by 2047 which will increase the demand for furniture products. Moreover, India's rich heritage of unique craftsmanship, woodwork, carpentry and furniture, particularly in regions like Jodhpur, provides a competitive advantage in terms of skilled labour.

The Government of India has implemented certain measures, such as increasing import duties on furniture from 20% to 25% to boost domestic manufacturing and publishing Bureau of Indian Standards (BIS) on modular furniture in 2022 to enhance standardisation and product safety. These measure signify the government's support for the growth of the industry. Furthermore, the recent conclusion of the India-Australia Economic Cooperation and Trade Agreement (ECTA) and the India-UAE Comprehensive Economic Partnership Agreement (CEPA) has opened up zero-duty market access for furniture made exclusively in India in these global markets, further strengthening the industry's export potential.

Global Laminates Industry⁸

The global decorative laminates market has exhibited a steady growth, with an estimate of USD 7.75 billion in 2023 and USD 8.13 billion in 2024. The market is projected to expand at a CAGR of 5.06%, reaching USD 10.95 billion by 2030. Decorative laminates, composed of layers of paper infused with resin and compounded under heat and pressure, have gained popularity due to their cost-effectiveness, durability and versatility. Their resistance to scratches, moisture and fading, coupled with a wide selection of designs and finishes, makes them an attractive choice for various applications, particularly in high-traffic areas.

Regionally, the North and South Americas observe a high demand for decorative laminates for renovation and remodelling activities in residential and commercial interiors. The Asia-Pacific region, with countries like China and India, is witnessing a growing market fuelled by urbanisation, a promising real estate sector and rising income levels. Europe emphasises on eco-friendly, sustainable and quality production, aligning with the stringent regulatory standards, while manufacturers in the region offer a diverse range of aesthetic and functional options.

India's Laminates Industry⁹

India's decorative laminates market is witnessing a steady growth, estimated to reach USD 566.95 million by the end of this year. Over the next 5 years, the market is projected to achieve USD 737.83 million, registering a CAGR of 5% during the forecast period. This growth is primarily driven by the growing construction industry and an increasing consumption of furniture in the country. The thriving residential construction sector is fuelled by the government's initiatives such as the Pradhan Mantri Awaas Yojana Gramin and the Urban Infrastructure Development Fund. This is creating a demand for decorative laminates for applications like furniture, walls and flooring.

Global Acrylic Solid Surface Industry¹⁰

The acrylic solid surface industry is experiencing growth, with projections indicating a market size of around USD 3.0 billion by 2033, up from USD 1.8 billion in 2023, growing at a CAGR of 5.4%. Acrylic solid surface is a versatile and durable material composed of acrylic polymer and natural minerals. It is a non-porous and homogeneous surface suitable for various purposes, including counter-tops, kitchen sinks, wall cladding and other architectural elements.

The market's growth is fuelled by increasing demand for aesthetically pleasing and durable surface materials in residential and commercial construction projects. The material's seamless design, vibrant colour and customisable finish has made it a popular choice among home owners, designers and architects. Additionally, the emphasis on hygiene and cleanliness in the residential and commercial environments has driven the demand

Company Overview

Stylam Industries is one of the fastest-growing companies in the high-quality decorative laminates and allied products sector. It operates Asia's largest single-location laminate manufacturing plant and has a diverse product range built on over 33 years of industry experience. Stylam is a pioneer in India with its introduction of the PU+ Lacquer Coating process, which results in high-quality, high-value laminate finishes. In addition to laminates, the company utilizes advanced technologies and manufacturing facilities for Solid Acrylic Surfaces and Panels. Recently, Stylam expanded into a new segment with a short cycle press capacity for laminating impregnated paper on Medium Density Fiber (MDF) panels.

Approximately two-thirds of Stylam's revenue comes from exports to over 80 countries, with the remainder generated from its presence across the Indian subcontinent. Stylam's commitment to quality and innovation has earned it numerous certifications and recognitions. The company has ISO 9001:2015 and ISO 14001:2015 certifications, demonstrating its dedication to quality management and sustainability. The Company's products are also compliant with various international standards such as European Standards (EN), American Society for Testing and Materials (ASTM) and Japanese Industrial Standards (JIS).

Opportunities

- Stylam's products are used in various applications, including construction. The Indian government's focus on infrastructure development, such as the Smart Cities Mission and the Bharatmala Pariyojana Program, can drive a demand for its products.

- The Company's global presence and strong distribution network can be used to expand into new markets, particularly in regions with growing infrastructure and real estate sectors.
- The Company is committed to environmental sustainability, as seen in its ISO 14001:2015 certification which aligns with the Indian government's initiatives to promote eco-friendly practices. This can help the Company capitalise on the growing demand for sustainable products.

Threats

Impact of Red Sea Disruptions on Furniture Supply Chains

The increasing frequency of attacks on international shipping in the Red Sea is significantly impacting consumer goods supply chains, including the furniture industry. The European furniture retail sector is particularly vulnerable to sea imports from Asia, as there are fewer alternative transportation options compared to U.S. retailers. Products such as seats, sofas, bedding, and lighting are more affected, whereas carpets, mainly sourced from Turkey, and specialty furniture like office furnishings and wooden bedroom and kitchen furniture where local design and premium production are crucial are less affected. At least one retailer is adopting an early shipping strategy, although the necessity for such tactics in the furniture industry is lessened by the low seasonality of furniture shipments. Suppliers might have extra capacity, as U.S. and EU furniture imports decreased by 10% year over year and by 19% compared to their peak in 2022 during the three months leading up to November 30, 2023¹¹.

¹¹ <https://www.spglobal.com/marketintelligence/en/mi/research-analysis/red-sea-disruptions-impact-furniture-supply-chains.html>

Volatility in Raw Material Prices and Intense Competition

Fluctuating prices of raw materials, particularly wood and metal, present significant challenges to the industry. Manufacturers frequently encounter cost pressures, affecting their profit margins and pricing strategies. The market is highly competitive, with both domestic and international players competing for market share. This intense competition can result in price wars and diminished profitability.¹²

Standalone

The standalone revenue (revenue from operations) decreased by 4% to INR 914.08 Crore for Financial Year 2023-2024 from INR 952.13 crore for Financial Year 2022-23, driven by due to Russia-Ukraine War, Inflation and other challenging global environment leads to decline in export sales and domestic sales. The global market for Decorative Laminates estimated at USD 6302.3 million in the year 2022, is projected to reach a revised size of USD 7090.9 million by 2028, growing at a CAGR of 2.0Percent during the forecast period 2022-2028.

North America is anticipated to account for significant share of the market during the forecast period. Asia Pacific is estimated to be a rapidly growing region of the decorative laminates market, owing to the rise in demand for these laminates from residential and non-residential sectors. Increase in disposable income, economic growth, rise in standard of living, and growth in residential construction are some of the factors driving the market in Asia Pacific. Middle East & Africa is likely to be an attractive region of the decorative laminates market during the forecast period owing to the increase in the number of tourist hotels and growth in the construction industry in the region

Decline in construction industry affects laminate flooring sales

Laminate flooring sales suffers in 2023

After a challenging year in 2022, the laminate industry's sales continue to be impacted by the construction sector's downward trend into 2023, according to the European Producers of Laminate Flooring Association (EPLF).

Despite facing a general decline due to inflation, rising material costs, and slowing demand, the sector maintains confidence in the market and remains optimistic about future sales.

The construction market has been under pressure due to high inflation and rising costs. Consumers stopped building and renovating. As laminate is one of the biggest flooring categories, it follows the downward trend of the construction market.

Long term projections however show a very big opportunity for laminate flooring as new construction and renovation are expected to boom in the next few years. The construction market will go up again as there is a shortage of housing, new houses will need to be built and the existing housing market will need to be renovated because of the implementation of the European Green Deal.

On the short term, the members of EPLF prepare for a difficult market. They are confident on the medium and longer term and are optimistic for future sales.

DIVIDEND DISTRIBUTION POLICY

1. Preamble

Regulation **43A** of the **SEBI** (Listing Obligations and Disclosure Requirements) Regulations, 2015 read with SEBI (Listing Obligations and Disclosure Requirements) (Second Amendment) Regulations, 2021 (the “Regulations”) mandated top one thousand listed companies (based on market capitalization of every financial year) to formulate a Dividend Distribution Policy, which shall be disclosed in its Annual Report and on its website.

The policy, in the interest of providing transparency to the shareholders, sets out the circumstances and different factors for consideration by the Board at the time of deciding on distribution or of retention of profits. In view of the said requirement, the Board of Directors of the Company recognizes the need to lay down a broad framework with regard to the distribution of dividend to its shareholders and utilization of the retained earnings. The Policy reflects the intent of the Company to reward its shareholders by distributing a portion of its profits after retaining sufficient funds for the business needs and growth of the Company.

The Company would ensure to strike the right balance between the quantum of the dividend paid and amount of profits retained in the business for various purposes. The Board of Directors will have regards to this policy while declaring/recommending dividends on the behalf of the Company. Through this policy, the Company would strive to maintain a consistent approach to dividend pay-out plans.

The Board of Directors (the “Board”) of Stylam Industries Limited (the “Company”) at its meeting held on 16 June 2021 has adopted this Dividend Distribution Policy (the “Policy”), pursuant to the terms of Regulation 43A of the SEBI (LODR) Regulations, 2015 read with SEBI (LODR) (Second Amendment), 2021.

2. Definitions

“**Board**” shall mean Board of Directors of the Company;

“**Companies Act**” shall mean the Companies Act, 2013 and Rules thereunder, notified by the Ministry of Corporate Affairs, Government of India, as amended;

“**Dividend**” includes any interim dividend;

“**Listed Entity / Company**” shall mean Stylam Industries Limited;

“**Policy**” means Dividend Distribution Policy;

“**Stock Exchange**” shall mean a recognised Stock Exchange as defined under clause (f) of Section 2 of the Securities Contracts (regulation) Act, 1956.

3. Policy

A. Parameters and factors for declaration of dividend

The dividend pay-out decision of the Board depends upon the following financial parameters, internal and external factors:

Financial parameters and Internal Factors:

- Operating cash flow of the Company
- Profit earned during the year
- Profit available for distribution
- Earnings Per Share (“EPS”)
- Working capital requirements
- Capital expenditure requirements
- Business expansion and growth
- Likelihood of crystallization of contingent liabilities, if any
- Additional investment in subsidiaries and associates of the Company
- Up gradation of technology and physical infrastructure
- Creation of contingency fund
- Acquisition of brands and business
- Cost of Borrowings
- Need for conservation of cash due to economic downturn
- Past dividend pay-out ratio / trends

External Factors:

- Economic environment
- Government regulations
- Capital markets
- Global conditions
- Statutory provisions and guidelines
- Dividend pay-out ratio of competitors

B. Circumstances under which the shareholders of the company may or may not expect dividend

The decision regarding dividend pay-out is a crucial decision as it determines the amount of profit to be distributed among shareholders of the Company and the amount of profit to be retained in business. The decision seeks to balance the dual objectives of appropriately rewarding shareholders through dividends and retaining profits in order to maintain a healthy capital adequacy ratio to support future growth. The shareholders of the Company may

not expect dividend in the following circumstances, subject to discretion of the Board of Directors:

- Proposed expansion plans requiring higher capital allocation
- Decision to undertake any acquisitions, amalgamation, merger, joint ventures, new product launches etc. which requires significant capital outflow
- Requirement of higher working capital for the purpose of business of the Company
- Proposal for buy-back of securities
- In the event of loss or inadequacy of profit.

C. Utilization of the retained earning

The Board may retain its earnings in order to make better use of the available funds and increase the value of the stakeholders in the long run. The decision of utilization of the retained earnings of the Company shall be based on the following factors

- Market expansion plan
- Product expansion plan
- Increase in production capacity
- Modernization plan
- Diversification of business
- Long term strategic plans
- Replacement of capital assets
- Where the cost of debt is expensive
- Dividend payment
- Such other criteria as the Board may deem fit from time to time.

D. Rate/ Quantum of dividend:

The Company will strive to distribute an optimal and appropriate level of the profits earned by it in its business, to the shareholders, in the form of dividend. The Company would maintain a dividend pay-out as may be determined by the Board from time to time, considering the general business factors and other significant parameters specified in this policy.

E. Manner of dividend pay-out

In case of final dividend:

- i. Recommendation, if any, shall be done by the Board, usually in the Board meeting that

considers and approves the annual financial statements, subject to approval of the shareholders of the Company.

- ii. The dividend as recommended by the Board shall be approved/declared at the Annual General Meeting of the Company.
- iii. The payment of dividends shall be made within the statutorily prescribed period from the date of declaration, to those shareholders who are entitled to receive the dividend on the record date/book closure period, as per the applicable law

In case of interim dividend:

- i. Interim dividend, if any, shall be declared by the Board.
- ii. Before declaring interim dividend, the Board shall consider the financial position of the Company that allows the payment of such dividend.
- iii. The payment of dividends shall be made within the statutorily prescribed period from the date of declaration to the shareholders entitled to receive the dividend on the record date, as per the applicable laws.
- iv. In case no final dividend is declared, interim dividend paid during the year, if any, will be regarded as final dividend in the Annual General Meeting.

4. Conflict in policy

In the event of any conflict between this Policy and the provisions contained in the regulations, the regulations shall prevail.

5. Discloser

The Dividend Distribution Policy shall be disclosed in the Annual Report and on the website of the Company i.e., www.stylam.com

6. Policy review and amendments

This Policy would be subject to modification in accordance with the guidelines / clarifications as may be issued from time to time by relevant statutory and regulatory authority. The Board may modify, add, delete or amend any of the provisions of this Policy. Any exceptions to the Dividend Distribution Policy must be consistent with the Regulations and must be approved in the manner as may be decided by the Board of Directors

(vi) contribution to Provide Apprentices training as one of the main pillars of the Indian economy is manufacturing, which is seeing rapid technological development. Through spending on apprenticeship programs and training, people can acquire industry-specific skills in mechanics, automation, and CNC machining. This guarantees a ready supply of skilled labor to maintain production lines operating smoothly.

(VII) Contribution towards National Apprenticeship Promotion Scheme (NAPS).

(VIII) Contribution to the Furniture & fitting skill Council (FFSC). FFSC collaborates with industry partners, educational institutions, and government bodies to create a skilled workforce that meets the Industry;s demands. The Furniture and Fittings Skill Council (FFSC) is dedicated to enhancing the skill sets of the Furniture and Fittings sector through various training programs and initiatives.

National Apprenticeship Promotion Scheme (NAPS).

India's economic growth largely depends on its workforce's skills and capabilities. To address the increasing demand for skilled workers and bridge the gap between education and industry requirements, the Indian government launched the National Apprenticeship Promotion Scheme (NAPS). This groundbreaking initiative, under the larger umbrella of Skill India, aims to promote apprenticeship training across various industries, providing youth with valuable on-the-job training, industry exposure, and better employment opportunities. In this article, we will explore the key aspects of NAPS, its benefits, and its significance in shaping the future of India's workforce.

Objectives of NAPS:

- Facilitate Skill Development:** NAPS aims to equip the Indian youth with industry-relevant skills to enhance their employability prospects and contribute to economic growth.
- Industry-Ready Training:** By offering on-the-job training, NAPS ensures that apprentices acquire practical experience, making them industry-ready from day one.
- Bridge the Skill Gap:** The scheme addresses the skill gap by aligning training programs with industry requirements, reducing the disconnect between academia and the job market

The National Apprenticeship Promotion Scheme (NAPS) is a pivotal initiative towards building a skilled and capable workforce in India. By fostering collaboration between educational institutions and employers, NAPS empowers the youth with industry-relevant skills, fostering economic growth, and paving the way for a brighter future for India. As the scheme continues to evolve and expand, it will undoubtedly play a crucial role in shaping the nation's development, ensuring a prosperous and empowered India for years to come.

Welfare of Cows

The welfare of cows in traditional cow shelters (gaushalas), was assessed on the basis of the measurement of animal-and resource-based welfare parameters and description of the herd characteristics by the manager. A description of the condition of the cows and the resources provided to them is provided in this cross-sectional study. Small space allowance per cow, non-uniform flooring, little freedom of movement, and lack of access to pastures were the key welfare issues observed in the study. Very few cows were recorded as lame, but about half had carpal joint lesions and slightly less had lesions from interacting with shelter furniture. This study will inform the stakeholders about the concept of welfare auditing of the cow shelters, for better welfare and management of the cows in the shelters. Company under its CSR policy initiated to support the welfare of the cows.

- Healthcare

The healthcare in India is ailing at an alarming rate. Company's health initiatives started with a need to provide basic access to primary healthcare services to the community around. Company has made monetary contribution to institutions providing healthcare services.

- Care for Senior Citizens

With India emerging as the most populous nation and increasing life expectancy, its ageing population is steadily rising. The proportion of the 60+ population in the country rose from 7.5 per cent in 2001 to 9.7 per cent in 2021 and is expected to touch 12.1 per cent in 2031 and 16.6 per cent by 2051. Those in the 70+ age group, currently around 5 per cent, are likely to double. In terms of numbers, we will have to deal with approximately 140 million to over 200 million senior citizens in the next 30 years. Old-age problems extend beyond physical health or disabilities; they also encompass mental, social, and psychological aspects. Addressing these challenges requires a great deal of understanding and empathy to provide relief to those in need. Company under its CSR policy initiated to support the senior citizens of the society.

Company has contributed to the old age homes for senior citizens.

- Hunger, malnutrition and health

Company believe in the importance of investing in nutrition as accelerator to inclusive opportunity for a healthy growth, and as enabler of better life. Company is committed to fight hunger and malnutrition. Company monetary contributed to the Charitable Trust to eradicate hunger, malnutrition and improved health.

Independent Auditor's Report

To
The Members of
Stylam Industries Limited

Report on the audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Stylam Industries Limited ("the Company"), which comprise the Balance Sheet as at 31 March 2024, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS"), and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2024, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis of Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter to be communicated in our report.

The Key Audit Matter

Revenue Recognition

The Company recognizes revenue at the point of time when control of the goods is transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

In determining the transaction price for the sale, the Company considers the effects of variable consideration and consideration receivable from the customer.

The nature of rebates, discounts and sales returns, if any, involve judgment in determining sales revenues and revenue cut-off. The risk is, therefore, that revenue may not be recognized in the correct period or that revenue and associated profit is misstated.

How the matter was addressed in our audit

- We performed process walk through to understand the adequacy and the design of the revenue cycle. We tested internal controls in the revenue and trade receivables over the accuracy and timing of revenue accounted in the financial statements.
- Understanding the policies and procedures applied to revenue recognition, as well as compliance thereof, including an analysis of the effectiveness of controls related to revenue recognition processes employed by the Company.
- We reviewed the revenue recognition policy applied by the Company to ensure its compliance with Ind-AS 115 requirements.
- We checked the contracts of customers along with revenue recognition policy applied by the Company to ensure satisfaction of performance obligation upon transfer of control of products to customer at a point in time. Our checking procedure includes consideration of the accounting and presentation of the rebates and discount arrangements.
- In addition to substantive analytical reviews performed to understand how the revenue has trended over the year, we performed a detailed testing on transactions around the year-end, ensuring revenues were recognized in the correct accounting period. We also tested journal entries recognized to revenue focusing on unusual or irregular transactions.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's management and Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial

statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of section 143(11) of the Act, we give in the **"Annexure A"** a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. (A) As required by Section 143(3) of the Act, based on our audit, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss including other comprehensive income, the Cash Flow Statement and the statement of changes in equity dealt with by this Report are in agreement with the relevant books of account.

- (d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
 - (e) On the basis of the written representations received from the directors as on 31st March, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2024 from being appointed as a director in terms of Section 164 (2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in **"Annexure B"**. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- (B) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements;
 - ii. The Company did not have any long term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Company or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (b) The Management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities ("Funding Parties"), with the

understanding, whether recorded in writing or otherwise, that the Company shall directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Funding Parties or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- (c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) contain any material misstatement.

- (C) With respect to the matter to be included in the Auditors' Report under section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of section 197 of the Act. The remuneration paid to any director is not in excess of the limits laid down under section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under section 197(16) of the Act which are required to be commented upon by us.

- (D) Based on our examination which included test checks, in respect of financial year commencing on 1 April 2023, the company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has been operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.
- (E) As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

Annexure A to the Independent Auditor's Report

(Referred to in Paragraph 1 Under 'Report on other Legal and Regulatory Requirements' of our Report of Even Date)

With reference to the Annexure A referred to in the Independent Auditors' Report to the members of the Company on the standalone financial statements for the year ended 31 March 2024, we report the following:

- i. (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of the fixed assets.
 - (B) The Company has maintained proper records showing full particulars of intangible assets.
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its fixed assets by which all fixed assets are verified in a phased manner, over a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain fixed assets were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
- (c) Based on the examination of the registered sale deed, transfer deed, conveyance deed, mutation of title papers we report that, the title deeds, of all the immovable properties of land and buildings (other than those that have been taken on lease and the lease agreements are duly executed in favour of the Company) disclosed in the financial statements included in (property, plant & equipment and capital work in progress), are held in the name of the Company as at the balance sheet date. Immovable properties of land and buildings whose title deeds have been pledged as security for loans, guarantees, etc., are held in the name of the Company.
- (d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its property, plant and equipment (including right of use assets) or intangible assets or both during the year
- (e) According to the information and explanations given to us and the records examined by us including registered title deeds, we report that, the title deeds, comprising all the immovable properties of land and buildings which are freehold, are held in the name of the Company as at the balance sheet date. In respect of immovable properties of land that have been taken on lease and disclosed as Right of Use Assets in the financial statements, the lease agreements are in the name of the Company, where the Company is the lessee in the agreement.
- (f) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- ii. (a) The inventory, except goods-in-transit and stocks lying with third parties, have been physically verified by the management during the year. Annexure B to the Independent Auditor's Report

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Subsection 3 of Section 143 of the Companies Act, 2013 ("the Act")

Opinion

We have audited the internal financial controls with reference to financial statements of Stylam Industries Limited ("the Company") as of 31 March 2024 in conjunction with our audit of the financial statements of the Company as at and for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such internal financial controls were operating effectively as at 31 March 2024, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section

143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material

respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Standalone Financial Statements

for the year ended 31st March 2024

1. Company information

Stylam Industries Limited ("the Company") is a public limited company incorporated in India with its registered office located at Sco-14, Sector 7-C, Madhya Marg, Chandigarh, India. The Company is listed on the Bombay Stock Exchange (BSE) and National Stock Exchange (NSE). The Company is engaged in manufacturing of laminates, solid surface panels and allied products.

The manufacturing facilities of the company are located at Panchkula, Haryana, India

2. Basis of Preparation, Measurement and Significant accounting policies

2.1 Basis of Preparation and measurement

a) Basis of preparation

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time.

The financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements.

The financial statements are presented in INR, the functional currency of the Company. Items included in the financial statements of the Company are recorded using the currency of the primary economic environment in which the Company operates (the 'functional currency')

The financial statements of the Company for the year ended March 31, 2024 were approved for issue in accordance with the resolution of the Board of Directors on May 27th, 2024

b) Basis of measurement

These Standalone Financial statements are prepared under the historical cost convention unless otherwise indicated.

2.2 Key accounting estimates and judgements

The preparation of Financial statements requires management to make judgements, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods affected.

Key source of estimation of uncertainty at the date of financial statements, which may cause material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of impairment, useful lives of property and plant and equipment, provisions, valuation of deferred tax liabilities, contingent liabilities and fair value measurements of financial instruments as discussed below.

Key source of estimation of uncertainty in respect of revenue recognition and employee benefits have been discussed in the respective policies.

Continuous evaluation is done on the estimation. Actual results may differ from these estimates.

2.3 Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013.

The Company presents assets and liabilities in the Balance Sheet based on current/ non-current classification. An asset is treated as current when:

- It is expected to be realised or intended to be sold or consumed in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is expected to be realised within twelve months after the reporting period; or
- It is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

The Company classifies all other assets as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle for the purpose of current and non-current classification of assets and liabilities.

2.4 Significant accounting policies

(a) Property, plant and equipment (PPE)

- Property, plant and equipment

Items of property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost of assets comprises of purchase price and directly attributable cost of bringing the assets to working condition for its intended use including borrowing cost and incidental expenditure during construction incurred up to the date when the assets are ready for intended use. Capital work in progress includes cost of assets at sites, construction expenditure and interest on the funds deployed less any impairment loss, if any. If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as a separate item (major components) of property, plant and equipment. As per the assessment made by the management, property plant does not comprise any significant components with different useful life. Any gain on disposal of property, plant and equipment is recognised in Statement of Profit and loss. Costs in nature of repairs and maintenance are recognized in the Statement of Profit and Loss as and when incurred.

- Subsequent Measurement

Subsequent expenditure is capitalised only if it is probable that there is a future economic benefit associated with the expenditure will flow to the Company and the cost can be measured reliably.

- Capital work in progress

Capital work-in-progress comprises of assets in the course of construction for production or/and supply of goods or services or administrative purposes, are carried at cost, less any recognised impairment loss. At the point when an asset is operating at management's intended use, the cost of construction is transferred to the appropriate category of property, plant and equipment. Costs associated with the commissioning of an asset are capitalised where the asset is available for use and commissioning has been completed.

- Capital Advances

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under "Other Non-Current Assets".

(b) Depreciation and amortization methods, estimated useful lives and residual value

Depreciation is provided on straight line basis on the original cost/ acquisition cost of assets or other amounts substituted for cost of fixed assets as per the useful life specified in Part 'C' of Schedule II of the Act, read with notification dated 29 August 2014 of the Ministry of Corporate Affairs.

The useful life is as follows:

Sr. No.	Nature of Asset	Useful Life (Years)
1.	Buildings	30
2.	Plant & Machinery	7.5/15
3.	Other Equipment	3 to 5
4.	Vehicles	8
5.	Furniture/ Fittings	10

Depreciation in respect of additions to assets has been charged on pro rata basis with reference to the period when the assets are ready for use. The provision for depreciation for multiple shifts has been made in respect of eligible assets on the basis of operation of respective units.

(c) Intangibles

Intangible Assets acquired separately are stated at cost less accumulated amortization and impairment loss, if any.

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the statement of profit and loss when the asset is derecognised. Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment annually, and whenever there is an indication that the asset may be impaired, impairment loss is recognised in the statement of profit & loss.

- Amortisation

Intangible Assets are amortized on a Straight Line basis over the estimated useful economic life. The estimated useful lives of intangible assets are assessed as 6 years. Amortisation methods, useful lives and residual values are reviewed in each financial year end and changes, if any, are accounted for prospectively.

Notes to the Standalone Financial Statements

for the year ended 31st March 2024

(d) De-recognition

The carrying amount of an item of property, plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the de-recognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognised in the Statement of Profit and Loss when the item is derecognised.

(e) Non-current assets held for sale

Non-current asset, are classified as held for sale if it is highly probable that they will be recovered primarily through sale rather than through continuing use.

Such asset, are generally measured at the lower of their carrying amount and fair value less cost to sell.

Losses on initial classification as held for sale and subsequent gains and losses on re-measurement are recognised in the Statement of Profit and Loss.

Once classified as held-for sale, property, plant and equipment are no longer amortized or depreciated.

(f) Investments in Subsidiaries, and Associates

Investments in Subsidiary, and Associates are carried at cost less accumulated impairment losses, if any.

(g) Inventory

I. Inventories are valued as follows:

Raw materials, stores and spares	Lower of cost and net realisable value. Cost is determined on a FIFO basis. Materials and other items held for use in the production of inventories are not written down below costs, if finished goods in which they will be incorporated are expected to be sold at or above cost.
Work-in-progress, finished goods and traded goods	Lower of cost and net realisable value. Cost includes direct materials, labour and a proportion of manufacturing overheads.
Waste	At net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and to make the sale.

(h) Financial instruments

A Financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

- Initial Recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. However, trade receivables that do not contain a significant financing component are measured at transaction price.

- Cash and cash equivalents

- Cash and cash equivalent comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. These balances with banks are unrestricted for withdrawal and usage.

- Other bank balances include balances and deposits with banks that are restricted for withdrawal and usage

- Recoverability of trade receivable

Judgments are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the worth of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

- Derivative financial instruments and Hedge Accounting

The Company uses various derivative financial instruments such as forwards and options contracts to mitigate the risk of changes in exchange rates. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are also subsequently measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Notes to the Standalone Financial Statements

for the year ended 31st March 2024

Any gains or losses arising from changes in the fair value of derivatives are taken directly to Statement of Profit and Loss, except for the effective portion of cash flow hedges which is recognised in Other Comprehensive Income and later to Statement of Profit and Loss when the hedged item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial assets or non-financial liability.

- Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Financial Liabilities

- Initial recognition and measurement

All financial liabilities are recognised at fair value and in case of loans, net of directly attributable cost. Fees of recurring nature are directly recognised in the Statement of Profit and Loss as finance cost.

- Subsequent measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, amortised cost, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of amortised cost, net of directly attributable transaction costs.

- Derecognition

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expire.

(i) Impairment of non-financial assets

At each balance sheet date, the carrying amount of fixed assets is reviewed by the management to determine whether there is any indication that those assets suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent

of impairment loss (recoverable amount is the higher of an asset's net selling price or value in use). In assessing the value in use, the estimated future cash flows expected from the continuing use of the assets and from their disposal are discounted to their present value using a pre discounted rate that reflects the current market assessment of time value of money and risks specific to the asset.

Reversal of impairment loss is recognised immediately as income in the Profit and Loss Account.

(j) Valuation of deferred tax liabilities

The Company reviews the carrying amount of deferred tax liabilities at the end of each reporting period.

(k) Provision and contingent liabilities

A provision is recognised when the Company has a present obligation as result of a past event and it is probable that the outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Contingent liabilities are not recognised in the financial statements. Contingent assets are neither recognised nor disclosed in the financial statements.

(l) Revenue recognition

The Company recognizes revenue when it satisfies a performance obligation in accordance with the provisions of contract with the customer. This is achieved when control of the product has been transferred to the customer, which is generally determined when title, ownership, risk of obsolescence and loss pass to the customer and the Company has the present right to payment, all of which occurs at a point in time upon shipment or delivery of the product. The Company considers shipping and handling activities as costs to fulfil the promise to transfer the related products and the customer payments

Notes to the Standalone Financial Statements

for the year ended 31st March 2024

for shipping and handling costs are recorded as a component of revenue.

Performance Obligation is achieved when:

- i) the Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- ii) the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- iii) the amount of revenue can be measured reliably;
- iv) it is probable that the economic benefits associated with the transaction will flow to the Company; and
- v) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

- Sale of products

Revenue from sale of products is recognized when the control on the goods have been transferred to the customer. The performance obligation in case of sale of product is satisfied at a point in time i.e., when the material is shipped to the customer or on delivery to the customer and there is no continuing effective control or managerial involvement with the goods, and the amount of revenue can be measured reliably.

Revenue from operations is disclosed net of GST.

Revenue from operations is adjusted with gain/loss on corresponding on foreign currency transactions related to export.

- Government Grants

Export incentive entitlements are recognised as income when there is reasonable assurance to receive that company will comply with the conditions attached to them and it is established that incentive will be received.

Government grants that compensate the Company for expenses incurred are recognised in the statement of profit and loss, as income or deduction from the relevant expense, on a systematic basis in the periods in which the expense is recognised.

- Other Income

Other income is accounted for on accrual basis as and when the right to receive arises.

(m) Expenditure

Expenses are accounted on accrual basis.

(n) Employee benefits

The Company's retirement benefit obligation is subject to a number of judgement including discount rates, inflation and salary growth. Significant judgement is required when setting these criteria and a change in these assumptions would have a significant impact on the amount recorded in the Company's balance sheet and the statement of profit and loss. The Company sets these judgements based on previous experience and third party actuarial advice.

- Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

- Defined contribution plans

Contributions to defined contribution schemes such as provident fund, employees state insurance, labour welfare fund, are charged as an expense in Profit and loss account, based on the amount of contribution required to be made as and when services are rendered by the employees. These are classified as Defined Contribution Schemes as the Company has no further defined obligations beyond the monthly contributions.

- Retirement benefit obligations

Retirement benefit obligations are classified into defined benefits plans and defined contribution plans as under:

Defined Gratuity Plans

The Company pays gratuity to the employees whoever has completed five years of service with the Company at the time of resignation/ superannuation. The gratuity is paid @15 days

Notes to the Standalone Financial Statements

for the year ended 31st March 2024

salary for every completed year of service as per the Payment of Gratuity Act 1972.

The plan provides for a lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount based on the respective employee's salary and the tenure of employment. The liability in respect of Gratuity is recognised in the books of accounts based on actuarial valuation by an independent actuary.

Compensated absences

As per the Company's policy, eligible leaves can be accumulated by the employees and carried forward to future periods to either be utilized during the service, or encashed. Encashment can be made during service, on early retirement, on withdrawal of scheme, at resignation and upon death of the employee. Accumulated compensated absences are treated as other long-term employee benefits. The Company's liability in respect of other long-term employee benefits is recognised in the books of account based on actuarial valuation using projected unit credit method as at Balance Sheet date by an independent actuary. Actuarial losses/gains are recognised in the Statement of Profit and Loss in the year in which they arise.

Actuarial valuation

The liability in respect of all defined benefit plans is accrued in the books of account on the basis of actuarial valuation carried out by an independent actuary using the Projected Unit Credit Method, which recognises each year of service as giving rise to additional unit of employee benefit entitlement and measure each unit separately to build up the final obligation. The obligation is measured at the present value of estimated future cash flows. The discount rates used for determining the present value of obligation under defined benefit plans, is based on the market yields on Government securities as at the Balance Sheet date, having maturity periods approximating to the terms of related obligations.

- Re-measurement

Benefit plans in respect of retirement benefits are charged to the Other Comprehensive Income.

(o) Income Taxes

The tax expense for the period comprises current and deferred tax. Tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in the comprehensive income. In which case, the tax is also recognised in other comprehensive income or equity.

- Current tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted by the end of the reporting period.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (i.e. in other comprehensive income). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

- Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities / assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The carrying amount of Deferred tax liabilities and assets are reviewed at the end of each reporting period.

(p) Finance costs

Borrowing costs include exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use.

Notes to the Standalone Financial Statements

for the year ended 31st March 2024

All other borrowing costs are charged to the Statement of Profit and Loss for the period for which they are incurred.

Interest free loan taken from promoters and others has been derived on basis of fair value based on market rate of interest prevailing when loan and derived to the total tenure of loan. The interest for the period is charged to the Statement of Profit and Loss.

(q) Foreign currencies transactions and translation

The Company's financial statements are presented in INR, which is also the Company's functional currency. Transactions in foreign currencies are initially recorded by the Company at INR spot rate at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

(r) Earnings per share

Basic Earnings per share (EPS) amounts are calculated by dividing the profit for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders adjusted for the effects of potential equity shares by the weighted

average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

(s) Business Combination

The company accounts for its business combinations in the nature of Merger, wherein all the assets and liabilities of the transferor company will become, after amalgamation, the assets and liabilities of the transferee company.

The consideration for the amalgamation receivable by those equity shareholders of the transferor company who agree to become equity shareholders of the transferee company is discharged by the transferee company wholly by the issue of equity shares in the transferee company.

The business of the transferor company is intended to be carried on, after the amalgamation, by the transferee company.

No adjustment is to be made to the book values of the assets and liabilities of the transferor company when they are incorporated in the financial statements of the transferee company except to ensure uniformity of accounting policies.

(t) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The board of directors of the Company has been identified as being the chief operating decision maker by the Management of the company. The Business activity of the company majorly falls within one business segment viz "Laminates".

24. Financial Risk Management

Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company, through three layers of defense namely policies and procedures, review mechanism and assurance aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations. The Audit committee of the Board with top management oversee the formulation and implementation of the Risk management policies. The risk are identified at business unit level and mitigation plan are identified, deliberated and reviewed at appropriate forums.

The Company has exposure to the following risks arising from financial instruments:

- a. credit risk
- b. liquidity risk
- c. market risk

a. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counter party to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, loans and investments.

The carrying amount of financial assets represents the maximum credit risk exposure.

Trade receivables and other financial assets

The Company has established a credit policy under which customer is analysed individually for creditworthiness before the payment and delivery terms and conditions are offered. The Company performs an on-going assessment and monitoring of the financial position and the risk of default. Based on the aforesaid checks, monitoring and historical data, the Company does not perceive any significant credit risk on trade receivables.

In monitoring customer credit risk, customers are grouped according to their credit characteristics, including whether they are an individual or a legal entity, whether they are a institutional, dealers or end-user customer, their geographic location, industry, trade history with the Company and existence of previous financial difficulties.

Notes to the Standalone Financial Statements

for the year ended 31st March 2024

24. Financial Risk Management (Contd..)

The Company based on internal assessment which is driven by the historical experience/ current facts available, the management believes the strong opinion of recovery from trade receivables and where risk of default, if any, will be negligible and accordingly no provision for expected cash loss has been provided on trade receivables.

With regards to all other financial assets with contractual cash flows management believes these to be high quality assets with negligible credit risk. Thus, no provision for expected cash loss has been provided on these financial assets.

b. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities.

The Company has mature liquidity risk management processes covering short-term, mid-term and long-term funding. Liquidity risk is controlled through maintaining sufficient reserves, adequate amount of committed credit facilities and loan funds.

The contractual maturities of the Company's financial liabilities are presented below:-

31 March 2024	Contractual cash flows			
	Carrying amount	Within one year	More than one year	Total

Other financial liabilities	1.67	1.67	-	1.67

₹ In lakh

Foreign exchange forward contracts is the difference between the booking rate and exchange rate at the balance sheet date, and not considered under financial obligation.

c. Market risk

Market risk is the risk that changes in market prices such as foreign exchange rates, interest rates that will affect the Company's income, assets, liabilities or expected cash flows. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency risk

The Company is exposed to currency risk to the extent that there is a mismatch between the currencies in which sales, purchases and borrowings are denominated and the functional currency of the Company. The currencies in which the Company is exposed to risk are USD and EUR

The Company follows a natural hedge driven currency risk mitigation policy to the extent possible. Any residual risk is evaluated and appropriate risk mitigating steps are taken, including but not limited to, entering into forward contracts.

EURO	1%	(9.84)	9.84

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk because funds are borrowed at both fixed and floating interest rates. Interest rate risk is measured by using the cash flow sensitivity for changes in variable interest rate. The borrowings of the Company are principally denominated in rupees and US dollars with a mix of fixed and floating rates of interest. The Company has exposure to interest rate risk, arising principally on changes in base lending rate and LIBOR rates. The risk is managed by the Company by maintaining an appropriate mix between fixed and floating rate borrowings.

Exposure to interest rate risk

The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows:

The following table provides a break-up of the Company's fixed and floating rate borrowings:

	31-03-2024	31-03-2023
	₹ In lakh	
Fixed rate borrowings	-	570.31
Floating rate borrowings	67.36	4,122.67
Total borrowings	67.36	4,692.98

Sensitivity analysis

The sensitivity analysis below have been determined based on the exposure to interest rates for floating rate liabilities assuming the amount of the liability outstanding at the year-end was outstanding for the whole year.

25. Capital Management

Risk management

The Company's objectives when managing capital are to:

- safeguard its ability to continue as a going concern, so that it can continue to provide returns for its shareholders and benefits for other stakeholders, and
- maintain an optimal capital structure to reduce the cost of capital.

The Company manages its capital structure and makes adjustments to it as and when required. To maintain or adjust the capital structure, the Company plan either to raise fresh debt or to repay it, to raise fresh equity or sell those assets which have little contribution in the company's overall performance, when to pay dividends etc.

Consistent with others in the industry, the Company monitors capital on the basis of the following gearing ratio:

Net debt (total borrowings net of cash and cash equivalents and other bank balances) and divided by Total 'equity' (as shown in the Balance Sheet).

	31-03-2024	31-03-2023

- Fair valuation of financial assets and liabilities with short term maturities is considered as approximate to respective carrying amount due to the short term maturities of these instruments.
- Fair value for investments has been disclosed at fair value.
- The fair values of long term borrowings are based on discounted cash flows using current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk.
- The fair value of forward foreign exchange contracts and principal swap is determined using forward exchange rates at the balance sheet date

There are no transfers between level 1, Level 2 and Level 3 during the year ended 31 March 2024 and 31 March 2023.

The following explains the judgements and estimates made in determining the fair values of the financial instruments that are recognised and measured at fair value. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial investments into the three levels prescribed under the accounting standard.

Notes:

Level 1: hierarchy includes financial instruments measured using quoted prices. This includes mutual funds that have quoted price and are valued using the closing NAV.

Level 2: hierarchy includes the fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) and the fair value is determined using valuation techniques which maximise the use of observable market

34. Segment Reporting

According to Ind AS 108, identification of operating segments is based on Chief Operating Decision Maker (CODM) approach for making decisions about allocating resources to the segment and assessing its performance. The business activity of the company falls within one broad business segment viz. "Laminates". The Gross income and profit from the other segment is below the norms prescribed in Ind AS 108. Hence, the disclosure requirement of Ind AS 108 of 'Segment Reporting' is not considered applicable.

Independent Auditor's Report

To
The Members of
Stylam Industries Limited

Report on the audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Stylam Industries Limited ("the Company"), and its subsidiaries (the Company and its subsidiaries together referred to as "the Group"), which comprise the consolidated Balance Sheet as at March 31, 2024, and the consolidated statement of Profit and Loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated cash flows Statement for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, Notes to the Financial Statements and other explanatory information (hereinafter referred to as "the Consolidated Financial Statement statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group, as at March 31, 2024, consolidated profit, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows for the year ended on that date.

Basis of Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter to be communicated in our report.

The Key Audit Matter

Revenue Recognition

The Group recognizes revenue at the point of time when control of the goods is transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

In determining the transaction price for the sale, the Group considers the effects of variable consideration and consideration receivable from the customer.

The nature of rebates, discounts and sales returns, if any, involve judgment in determining sales revenues and revenue cut-off. The risk is, therefore, that revenue may not be recognized in the correct period or that revenue and associated profit is misstated.

How the matter was addressed in our audit

- We performed process walk through to understand the adequacy and the design of the revenue cycle. We tested internal controls in the revenue and trade receivables over the accuracy and timing of revenue accounted in the financial statements.
- Understanding the policies and procedures applied to revenue recognition, as well as compliance thereof, including an analysis of the effectiveness of controls related to revenue recognition processes employed by the Company.
- We reviewed the revenue recognition policy applied by the Group to ensure its compliance with Ind-AS 115 requirements.
- We checked the contracts of customers along with revenue recognition policy applied by the Group to ensure satisfaction of performance obligation upon transfer of control of products to customer at a point in time. Our checking procedure includes consideration of the accounting and presentation of the rebates and discount arrangements.
- In addition to substantive analytical reviews performed to understand how the revenue has trended over the year, we performed a detailed testing on transactions around the year-end, ensuring revenues were recognized in the correct accounting period. We also tested journal entries recognized to revenue focusing on unusual or irregular transactions.

Information Other than the Financial Statements and Auditor's Report Thereon

The Holding Company's management and Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other

information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the consolidated Financial Statements

The Holding Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless

management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of Consolidated Financial Statement

Our objectives are to obtain reasonable assurance about whether the Consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the holding Company has adequate internal financial controls with reference to consolidated financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements.
- We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- (A) As required by Section 143(3) of the Act, based on our audit, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our

knowledge and belief were necessary for the purposes of our audit.

- (b) In our opinion, proper books of account as required by law have been kept by the Group so far as it appears from our examination of those books.
 - (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account and records maintained for the purpose of preparation of the consolidated financial statements.
 - (d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.
 - (e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2024 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditor of its subsidiary companies incorporated in India, none of the directors of the Group companies, incorporated in India is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164(2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company and its subsidiaries Companies incorporated in India and the operating effectiveness of such controls, refer to our separate report in **"Annexure A"**, Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to the consolidated financial statements.
- (B) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The consolidated financial statements disclose the impact, if any, of pending litigations on the consolidated financial position of the Group;
 - ii. The Group did not have any long-term contracts including derivative contracts as at March 31, 2024 for which there were any material foreseeable losses;

- iii. There has been no delay in transferring amounts required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiary companies, incorporated in India during the year.
- iv. (a) The respective Managements of the Company whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (b) The respective Managements of the Company whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company or any of such subsidiaries from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us on the Company whose financial statements have been audited under the Act, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. No Dividend has been paid during the year by the Holding company as well as by the subsidiary company.
- (C) Based on our examination which included test checks, the holding company and subsidiary company incorporated in India whose financial statements have been audited by us under the Act have used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we did not come across any instance of audit trail feature being tampered with.
- As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.
- (D) With respect to the matter to be included in the Auditors' Report under section 197(16) of the Act:
- In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the holding company and its subsidiaries which are incorporated in India to its directors during the year is in accordance with the provisions of section 197 of the Act. The remuneration paid to any director by the holding company and its subsidiaries which are incorporated in India is not in excess of the limit laid down under Section 197 of the Act.
- (3) With respect to the matters specified in paragraphs 3(xxii) and 4 of the Companies (Auditor's Report) Order, 2020 (the "Order"/"CARO") issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's report, according to the information and explanations given to us, and based on the CARO reports issued by us for the Company and its subsidiaries included in the consolidated financial statements of the Company, to which reporting under CARO is applicable, we report that there are no qualifications or adverse remarks in these CARO reports.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

Opinion

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended 31st March, 2024, We have audited the internal financial controls over financial reporting of STYLAM INDUSTRIES LIMITED (hereinafter referred to as "the Holding Company") and its one subsidiary company, which are the companies incorporated in India, as of that date

In our opinion the Holding Company and its subsidiary company which are the companies incorporated in India has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31st March 2024, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Board of Directors of the of the Holding company and its subsidiary company which are incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the

Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over

financial reporting of the Holding Company, insofar as it relates to the one subsidiary, which is the Company incorporated in India, is based on the corresponding report of the auditors of such subsidiary Company incorporated in India.

Notes to the Consolidated Financial Statements

for the year ended 31st March 2024

1. Group information

Stylam Industries Limited ("the Company") is a public limited company incorporated in India with its registered office located at Sco-14, Sector 7-C, Madhya Marg, Chandigarh, India. The Company is listed on the Bombay Stock Exchange (BSE) and National Stock Exchange (NSE). The Company is engaged in manufacturing of laminates, solid surface panels and allied products.

The manufacturing facilities of the company are located at Panchkula, Haryana, India.

The Company and its subsidiary (jointly referred to as the 'Group' herein under) considered in these consolidated financial statements are:

a) Subsidiary

Name of Company	Country of Incorporation	Principal Activities	Proportion of equity interest	
			As at 31st March 2024	As at 31st March 2023
Stylam Panels Limited *	India	Plywood Manufacturing	100%	100%

*Date of Incorporation is 06th July 2021.

b) Associates

Section 129(3) of the Companies Act, 2013, requires preparation of consolidated financial statement of the Company and its subsidiary in the same form and manner as that of its own.

Indian Accounting Standard (Ind AS) 28 on Investments in Associates defines Associate Group as an entity over which the investor has significant influence. It mentions that if an entity holds, directly or indirectly through intermediaries, 20 per cent or more of the voting power of the enterprise, it is presumed that the entity has significant influence, unless it can be clearly demonstrated that this is not the case.

The Company holds investments in the below entity which by share ownership are deemed to be an associate company:

- (i) Alca Vstyle Sdn. Bhd, Malaysia, where the company has 34% equity holding. This is a company engaged in trading of all kinds of merchandise in relation to household requisites, to purchase, sell, import, export, distribute, install and deal in domestic, commercial and industrial furniture and fixtures.

2. Basis of Preparation, Measurement and Significant accounting policies

2.1 Basis of Preparation and measurement

a) Basis of preparation and consolidation

These Consolidated Financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time.

The Consolidated financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to the periods presented in the Consolidated financial statements.

Subsidiary is an entity where the group exercise control or hold more than one-half of its total share capital. The net assets and results of the subsidiary is included in the consolidated financial statements from their respective dates of incorporation.

The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances. The accounting policies adopted in the preparation of consolidated financial statements are consistent. The consolidated financial statements of the Company and its subsidiary have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after eliminating intragroup balances, intra-group transactions.

The Consolidated financial statements are presented in INR, the functional currency of the Group. Items included in the consolidated financial statements of the Group are recorded using the currency of the primary economic environment in which the Group operates (the 'functional currency').

The Consolidated Financial statements of the Company for the year ended 31st March, 2024 were approved for issue in accordance with the resolution of the Board of Directors on 27th May, 2024.

b) Basis of measurement

These Consolidated Financial statements are prepared under the historical cost convention unless otherwise indicated.

Notes to the Consolidated Financial Statements

for the year ended 31st March 2024

2.2 Key accounting estimates and judgements

The preparation of Consolidated Financial statements requires management to make judgements, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgements based on historical experience and other factors, including expectations of future events that are believed to be reasonable.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods affected.

2.3 Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Group normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013.

The Group presents assets and liabilities in the Balance Sheet based on current/ non-current classification. An asset is treated as current when:

- It is expected to be realised or intended to be sold or consumed in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is expected to be realised within twelve months after the reporting period; or
- It is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

Group classifies all other assets as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

Group classifies all other liabilities as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. Group has identified twelve months as its

operating cycle for the purpose of current and non-current classification of assets and liabilities.

2.4 Basis of consolidation

The consolidated financial statements comprise the financial statement of the Stylam Industries Limited ('the Parent company') and subsidiary (collectively "the Group") as at March 31, 2024. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- (i) Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- (ii) Exposure, or rights, to variable returns from its involvement with the investee, and
- (iii) The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (i) The contractual arrangement with the other vote holders of the investee
- (ii) Rights arising from other contractual arrangements
- (iii) The Group's voting rights and potential voting rights
- (iv) The size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary. Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances,

Notes to the Consolidated Financial Statements

for the year ended 31st March 2024

appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies. The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on March 31. When the end of the reporting period of the parent company is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent company to enable the parent company to consolidate the financial information of the subsidiary, unless it is impracticable to do so or there are no significant transaction or event between the date of those financial statement and date of financial statement of parent company.

Associates are those entities over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control those

policies. Significant influence is presumed to exist when the Company holds 20 percent or more of the voting power of the investee. If accounting policies of associates differ from those adopted by the Group, the accounting policies of associates are aligned with those of the Group. The results, assets and liabilities of associates are incorporated in these financial statements using the equity method of accounting.

2.5 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The board of directors of the Company has been identified as being the chief operating decision maker by the Management of the company. The Business activity of the company majorly falls within one business segment viz "Laminates".

2.6 Significant accounting policies

These are set out under "Significant Accounting Policies" as given in the Company's standalone financial statements.

24. Financial Risk Management

Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company, through three layers of defense namely policies and procedures, review mechanism and assurance aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations. The Audit committee of the Board with top management oversee the formulation and implementation of the Risk management policies. The risk are identified at business unit level and mitigation plan are identified, deliberated and reviewed at appropriate forums.

The Company has exposure to the following risks arising from financial instruments:

- a. credit risk
- b. liquidity risk
- c. market risk

a. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counter party to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, loans and investments.

The carrying amount of financial assets represents the maximum credit risk exposure.

Trade receivables and other financial assets

The Company has established a credit policy under which customer is analysed individually for creditworthiness before the payment and delivery terms and conditions are offered. The Company performs an on-going assessment and monitoring of the financial position and the risk of default. Based on the aforesaid checks, monitoring and historical data, the Company does not perceive any significant credit risk on trade receivables.

In monitoring customer credit risk, customers are grouped according to their credit characteristics, including whether they are an individual or a legal entity, whether they are a institutional, dealers or end-user customer, their geographic location, industry, trade history with the Company and existence of previous financial difficulties.

Notes to the Consolidated Financial Statements

for the year ended 31st March 2024

24. Financial Risk Management (Contd..)

The Company based on internal assessment which is driven by the historical experience/ current facts available, the management believes the strong opinion of recovery from trade receivables and where risk of default, if any, will be negligible and accordingly no provision for expected cash loss has been provided on trade receivables.

With regards to all other financial assets with contractual cash flows management believes these to be high quality assets with negligible credit risk. Thus, no provision for expected cash loss has been provided on these financial assets.

b. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities.

The Company has mature liquidity risk management processes covering short-term, mid-term and long-term funding. Liquidity risk is controlled through maintaining sufficient reserves, adequate amount of committed credit facilities and loan funds.

The contractual maturities of the Company's financial liabilities are presented below:-

31 March 2024	Contractual cash flows			
	Carrying amount	Within one year	More than one year	Total

Foreign exchange forward contracts is the difference between the booking rate and exchange rate at the balance sheet date, and not considered under financial obligation.

c. Market risk

Market risk is the risk that changes in market prices such as foreign exchange rates, interest rates that will affect the Company's income, assets, liabilities or expected cash flows. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency risk

The Company is exposed to currency risk to the extent that there is a mismatch between the currencies in which sales, purchases and borrowings are denominated and the functional currency of the Company. The currencies in which the Company is exposed to risk are USD and EUR

The Company follows a natural hedge driven currency risk mitigation policy to the extent possible. Any residual risk is evaluated and appropriate risk mitigating steps are taken, including but not limited to, entering into forward contracts.

EURO	1%	(9.84)	9.84

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk because funds are borrowed at both fixed and floating interest rates. Interest rate risk is measured by using the cash flow sensitivity for changes in variable interest rate. The borrowings of the Company are principally denominated in rupees and US dollars with a mix of fixed and floating rates of interest. The Company has exposure to interest rate risk, arising principally on changes in base lending rate and LIBOR rates. The risk is managed by the Company by maintaining an appropriate mix between fixed and floating rate borrowings.

Exposure to interest rate risk

The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows:

The following table provides a break-up of the Company's fixed and floating rate borrowings:

	31-03-2024	31-03-2023
	₹ In lakh	
Fixed rate borrowings	-	570.31
Floating rate borrowings	67.36	4,122.67
Total borrowings	67.36	4,692.98

Sensitivity analysis

The sensitivity analysis below have been determined based on the exposure to interest rates for floating rate liabilities assuming the amount of the liability outstanding at the year-end was outstanding for the whole year.

25. Capital Management

Risk management

The Company's objectives when managing capital are to:

- safeguard its ability to continue as a going concern, so that it can continue to provide returns for its shareholders and benefits for other stakeholders, and
- maintain an optimal capital structure to reduce the cost of capital.

The Company manages its capital structure and makes adjustments to it as and when required. To maintain or adjust the capital structure, the Company plan either to raise fresh debt or to repay it, to raise fresh equity or sell those assets which have little contribution in the company's overall performance, when to pay dividends etc.

Consistent with others in the industry, the Company monitors capital on the basis of the following gearing ratio:

Net debt (total borrowings net of cash and cash equivalents and other bank balances) and divided by Total 'equity' (as shown in the Balance Sheet).

	31-03-2024	31-03-2023

- Fair valuation of financial assets and liabilities with short term maturities is considered as approximate to respective carrying amount due to the short term maturities of these instruments.
- Fair value for investments has been disclosed at fair value.
- The fair values of long term borrowings are based on discounted cash flows using current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk.
- The fair value of forward foreign exchange contracts and principal swap is determined using forward exchange rates at the balance sheet date

There are no transfers between level 1, Level 2 and Level 3 during the year ended 31 March 2024 and 31 March 2023.

The following explains the judgements and estimates made in determining the fair values of the financial instruments that are recognised and measured at fair value. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial investments into the three levels prescribed under the accounting standard.

Notes:

Level 1: hierarchy includes financial instruments measured using quoted prices. This includes mutual funds that have quoted price and are valued using the closing NAV.

Notes to the Consolidated Financial Statements

for the year ended 31st March 2024

27. Fair value Hierarchy (Contd..)

Level 2: hierarchy includes the fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) and the fair value is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. Currently, the Company does not have any such financial instruments.
